Brother And Sister Meet After 43 Years Apart

"WHAT WE USE FOR BAIT"—Howard Wheeler, left, of Lakeport, Calif., shows his sister, Mrs. Leo Koerber of 3449 Hubal Ave., S.W., the size of bait he uses for deep-sea fishing off the California coast when he goes after sailfin, marlin and, unintentionally, sharks. Wheeler and Mrs. Koerber, natives of Grayling, hadn't seen each other for 43 years.

Mrs. Leo Koerber of Grand Rapids was very happy to have her brother who she had not seen in 43 years visit her recently at her Grand Rapids home. She was having a neighborhood party one evening honoring a couple of friends, when she received a telephone call from Holland and it was her brother, Howard Wheeler of Lakeport, Calif., and in less than an hour he and his wife were at her home. It was a joyous meeting but neither one could remember what the other looked like, it had been so many years since they had last met.

His one ambition was to get back to Grayling to see his old home and look up some of his boyhood pals which they did, accompanied by the Koerbers on the week end of the 17th. They visited the old home at their grandparents, the late Mr. and Mrs. Frank Ingley, which is where Mrs. Frank Ingley now lives. They were both born in Grayling but orphaned at an early age they

were brought up by their aunt, the late Miss June Ingley. Howard left Grayling when he was 17 years old and his travels took him to Port Huron, Detroit, Chicago, Omaha, Neb., Kansas City, Mo., Phoenix, Ariz., and finally to California about 20 years. It was at this time that he met and married and it was with his bride that he went to California expecting to stay about a month, but instead they remained there. In the time since leaving Grayling he has learned paperhanging, painting, band saw filing, has been a truck driver and operated a restaurant, store and camp ground and a commercial spraying business. Having sold the orchard and spraying business they decided to come back east to see his sister.

The Wheelers have returned to California, but Mrs. Koerber says she will have to get out to California to finish catching up on conversation that was left over when he left.

Bucks Roll Over
Grayling, 42 to 0

The Grayling Vikings will play their final home football game of the season this Friday afternoon when they meet the Houghton Lake Bob Cats at the City Park field with game time set at 3 P. M. Larry Kolka has been elected as honorary captain for the game and will be playing with his knees taped tight. A physician has detected arthritis in the Viking back's knees and will allow him to finish the season's final game but only if he is rigidly taped. The team aware of the fine spirit shown by Kolka elected him as game captain and will be going all out to win the contest for him.

Those who will be playing their final high school football game here in Grayling are Co-Captain John Jackson and Dick Dunham, Frank Ludeman, George McEvers, Larry Pond and Marvin Bielecki.

Coach Arthur Allen named the following starting lineup to face

the Lakers: Ends, Ludeman and Pond; tackles, Bielecki and McEvers; guards, Dunham and Jim Parkinson; center, Jackson; backs, Gary Parkinson, Kolka, Charles Keway and Lloyd Failing.

The game last Friday moved here from Rosecommon due to light trouble on their field proved to be costly to Grayling. Besides being trampled 42 to 0, the services of Bill Kenyon were lost for the season as he suffered a fractured thumb of his left hand.

Grayling was never in the ball game after the middle of the second quarter as Rosecommon rolled for 408 yards as against 124 for the Vikings. Grayling tried 11 passes, completing only 3 while 5 were intercepted by the Buck backs.

Following the Houghton Lake game here Friday, the Vikings travel to Mancelona on Friday, November 6 for their final grid game of the season. The Mancelona team is really big this year and have proved to be the powerhouse of this part of the state.

The Rosecommon Grayling game was broadcast by direct wire from the Grayling City Park Field over radio station WATC. Gaylord with Lewis Stillwagon and Willard Cornell handling the play-by-play announcement. Plans call for the same direct wire broadcast of the Houghton Lake game this coming Friday afternoon.

Michigan Mirror ...

A Red Hot Battle is shaping up between Michigan's 1,267 townships and a movement which wants to siphon off part or all of the \$13 million new being returned to township governments from the state treasury.

Fighting started when the September issue of "Inside Michigan," a magazine reporting state affairs with particular attention to township government, announced a crusade against townships. Their claim: "Township residents are riding a gravy train at the expense of those who live in organized municipalities." Using figures compiled by Princeton tax experts for the Michigan State Aid Survey, the magazine presented a strong case.

Township officials responded by forming an organization dedicated to "sponsoring of legislation beneficial to local government, particularly townships, and to engage in the exchange of ideas and services for the improvement of township government." The quotes are those of Joseph A. Parisi, Kalamazoo Township clerk, who was elected executive secretary of the newly formed lobbying group.

Best argument favoring townships is the "grass roots" aspect. Advocates claim this system is the only method to keep voters close to their government.

Opponents assert that county agencies could maintain an equality, desirable relationship with the voter, perform more and improved services, and for less money. What's more, they say, the change would permit a fairer distribution of tax money returned to local governments under present state law.

Facts and figures from the State Aid Survey shows that 35.7% of Michigan's population is in township areas; 64.3% in cities. Cities and villages produce 95% of all taxes collected, but receive back only 80% of diverted funds. Looking at it another way: Townships raised 5.1% of all taxes to be diverted, received 19.6% of the money diverted. This contrasts with cities which supply 91.5% of the taxes receive 76.3% and villages supplying 3.4% and receiving 5.1%.

Supporters for both sides of the fight are hard at work. Politicians are sizing up the contest and wondering how it will affect voting. Observers are preparing to watch an interesting struggle as has occurred in a long time.

You'll hear much more about the value and drawbacks of township government—and soon.

Are there strings attached? That seems to be the question both Michigan State College and University of Michigan officials are asking themselves, but very quietly. On its face, the idea submitted by Gov. Williams that a trophy be presented each year to the winner of the MSC-U of M football game looks like a fine idea. But college people are wondering and stalling while they try to decide the answer.

Before accepting the trophy idea, college officials want to know more about it. Although they do not admit it publicly, it's certain they want to know whether the award will be known as Governor's trophy or as the Governor William's trophy. It's understandable that they would want to keep individual names out of the tremendous interest in the annual MSC-U of M classic.

"It's a very fine idea," said an MSC representative. "We'll discuss it in the college athletic council." U of M authorities were cooler but they also agreed to consider the proposal.

Gov. Williams thinks this year is a good time to launch the trophy because it's the first game played with State as a member of the Big Ten.

Michigan won honors at the National Future Farmers Convention in Kansas City this month. A Marlette youth, David Boyne, was elected national president; the Cassopolis chapter was awarded the top Golden Emblem rating while Owosso and Williamston were awarded Silver Emblem ratings; Rollin Blossosy of Williamston, was winner of a Star American Farmer award for the central region and a check of \$500; his father, Clarence Blossosy was presented with an Honorary American Farmer Degree.

Competition was keen for these honors. FFA has 8,500 chapters and gave only 97 emblem awards. Rollin Blossosy's distinction was won from a field of 363,000 members. Only five were selected.

Duties of the national president requires David Boyne to spend approximately 180 days away from home during the next year. He is now a student at MSC, majoring in dairy production. Young Boyne recently returned from a four month tour of Great Britain where he represented FFA as an exchange student. He has along list of honors in high school activities as well as farming accomplishments.

Gov. G. Mennen Williams Visits In Grayling

Governor G. Mennen Williams and his son were visitors in Grayling, the first of the week. They were here to enjoy a little duck hunting with Bill Hines of the Grayling Game Club.

The Governor and his son arrived at the Shoppensons Inn late Sunday night and following an early breakfast at Windemere Hotel at Houghton Lake, used the duck blinds of hotel owner, Stanley Breaugh. Those in the party besides the Governor and his son and Mr. Hines were Conservation Commission Chairman George Griffiths, Sailor Bill Huddleston and Bert Stoll, outdoor writer for the Booth newspapers.

The Governor proved himself a good duck shot, the group said and praised hotelman Breaugh for his fine food and service in the duck blinds.

To Screen Second Billy Graham Film

The second film made by Evangelist Billy Graham will be screened in Grayling at the Grayling High School Auditorium on Saturday, November 7 at 8 p. m. The film is titled "The Town U.S.A." and is being brought here by Rev. Hollie M. Luter.

A part of the story will be news reel films of the 1945 disaster in Texas City. The film was made by a free lance news photographer eight years ago during the holocaust in Houston and has never been viewed until this picture. The story revolves around a Texas oil millionaire who is brought to the abrupt realization of his need of a religious experience through danger to his daughter's life in the Texas City explosions and flaring flames.

Hospital Aid Notice

Mrs. George Griffith, president of the Mercy Hospital Aid, wishes to announce to those who purchased tickets on the Kelvinator refrigerator and other prizes which were to be raffled September 5th, that they can obtain refund for their tickets by presenting them at the desk at Shoppensons Inn.

Mrs. Griffith wishes to thank all who supported the venture and when the legal situation is clarified concerning this means of fund raising, another will be conducted. Mr. George Mason, who donated the refrigerator, has instructed Mrs. Griffith and Mrs. Roy Trudgen to give the refrigerator to Mercy Hospital which was in dire need of it in their kitchen. This has been done.

The Hospital Aid wishes to thank Mr. Mason for his generous donation.

Will Try To Increase Total Amount

Following the final report meeting of the Grayling Mercy Hospital Campaign held at the Pioneer Hill Sports Park in Rosecommon on October 21, an additional \$23,122.33 has been pledged bringing the total in the campaign fund to \$351,498.74 in three year pledges and gifts. The campaign Executive Committee stated today that an effort would be made to increase the amount pledged, even though the campaign has gone "over the top," because with more funds pledged it is hoped to have a larger hospital than the proposed 42 bed hospital. They added "We are also anxious to have as many within the community served by the hospital—a part of the program because everyone who is a potential user of the new hospital will want to feel he has done his part to make it possible. Therefore, a pledge will be appreciated from everyone who wishes to give proportionate to the gifts of others already received."

"We want everyone to realize that although the drive is ended and although we have exceeded our goal by over \$50,000, it is still necessary to maintain the giving

standards in the campaign. This policy will continue to be carried out by the Campaign Executive Committee and the Hospital Planning Board until the building program is completed. If we were to accept less than proportionate giving at this time it would be unfair to those wonderful people who did so and by doing so made it possible to raise more funds than ever before been raised in this area for a community project.

"In order to give public recognition to those who have made it possible to have a new hospital, the names of all donors will be listed, alphabetically, along with the amount of each pledge or gift in a paid advertisement in this paper during the month of November. Additional names will be published later."

It is also planned to have a master plaque in the proposed new hospital bearing the names of all donors.

Those wishing to make a pledge should not contact the Sisters of Mercy, for they are not conducting the fund raising program. Those wishing to give should contact the campaign headquarters (Phone Grayling 3001) or any member of the Campaign Executive Committee. Members of the Campaign Executive Committee include Bill Joseph, Fred Weistr, Dr. C. R. Cook, Roy Trudgen, Dr. C. R. Keyport, Alfred Bud Sorenson, George Griffith, Robert Strong, Willard Cornell, Stewart Rutledge, C. E. Munn, Charles Piper, Roy DeWitt, Bruce Moore, Elwin Matheson.

That "Slave Labor" Law!

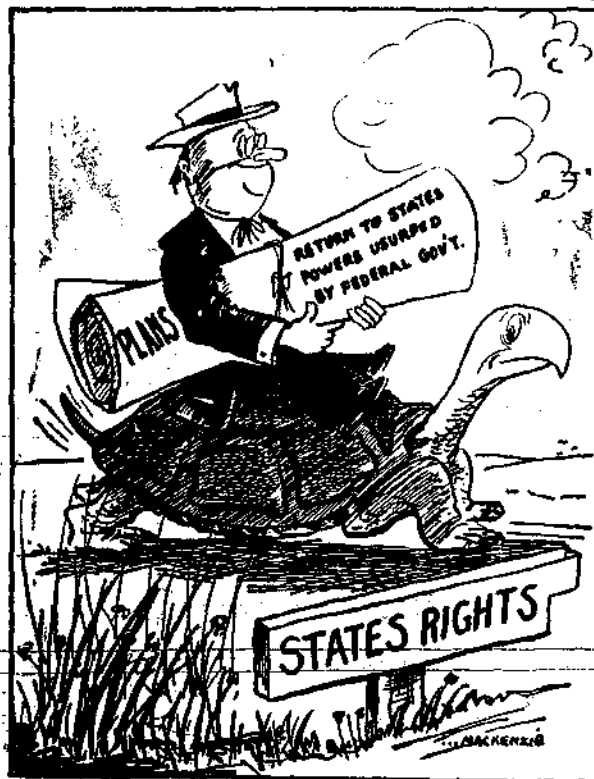

The Carlsbad, New Mexico, Current-Argus, recently ran an interesting editorial. It pointed out that labor leaders regard the Taft-Hartley act as a slave labor law, and can't seem to understand why the rank and file of union members seem indifferent to this burning issue. Then it quoted a leading labor newspaper as saying: "The government reported that . . . the nation's workers were earning more money, had a higher standard of living and were more fully employed than ever before. The latest survey of earnings of the 16,000,000 factory workers . . . showed wages were at a peak of \$1.77 per hour. This was 21 per cent above the level prevailing before the start of the Korean war, and nearly double the increase in the cost of living during that period."

The Current-Argus observed, "All this time, of course, that 'slave labor' Taft-Hartley law has been in effect."

Actually, the main thing the Taft-Hartley law has done from the union member's point of view is to free him, to some extent, from iron-handed domination by union bosses. And the right-to-work laws, which prohibit forcing a man either to join or not to join a union as a condition of employment, are a further step in this direction. The fact that these laws have been enacted in almost one third of the states show the way the wind of public sentiment is blowing.

It's just as important to protect labor from oppression by officials of unions as from oppression by officials of industry.

From where I sit... by Joe Marsh

It's the Principal
of the Thing!

Every autumn our High School has a contest to see who can get the most ads for The Recorder—the school magazine. The winner becomes honorary Principal for a day.

Skip Roberts won last week, and his first (and only) official act as "Principal" of the school was to announce in a loud, clear voice: "I hereby declare today a school holiday!"

Knowing Miss Gilbert, the real principal, it was no surprise to me that she laughed as hard as anybody else . . . and said to go right ahead.

From where I sit, it's no wonder our youngsters think Miss Gilbert's such a wonderful person (even though they know they'll have to make up that day). Her tolerance, her friendly way with people of all ages reflect in everything she does. For instance, at my house Miss Gilbert prefers tea but always respects my preference for a glass of beer. As a real person . . . in any community, Miss Gilbert belongs at "the head of the class."

Something really Special - in power,
room,
ride,
price

WE picture here a car that keeps our order book pages turning quicker than quick.

It is the 1953 Buick SPECIAL 4-Door Sedan—the bargain value that doesn't stay long on our showroom floor.

For this is the best-selling Buick in the land—snapped up by eager buyers who know something really special when they see it.

For your information, we present some SPECIAL facts.

It has a Fireball 8 Engine with the highest power and compression ratio ever placed in a Buick SPECIAL—plus, if you wish, the instant getaway response and utter smoothness of Twin-Turbine Dynaflo.*

It has easy-sitting-room for six adults—as much room as you'll find in cars costing hundreds of dollars more.

It has a ride unique among automobiles. The

Buick Million Dollar Ride. The soft and steady and ever-level ride that comes of coil springs on all four wheels—a full-length torque-tube drive—a massive X-braced frame—a solid and substantial roadweight poised with meticulous balance on broadly spaced wheels.

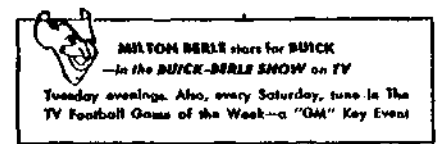

But what makes the Buick SPECIAL so extra special is the low delivered price it carries.

It is a price just an easy step above the so-called "low-price three"—and a price that gives you more room and power and ride-comfort for your money than you get in any other car, except another Buick.

Wouldn't you like to see, sit in and drive one of these great-powered Buicks—look into its beauty, its luxury, its handling ease—and judge for yourself how small a price tag it wears?

Phone us this week, or drop in. We'll be happy to arrange a demonstration.

*Standard on Roadmaster, optional at extra cost on other Series.

"DAD'S TREASURE"

Memorium to Frank Jennings
No one ever wrote a poem,
About my father or his deeds,
Like they did about my mother,
As she sowed the precious seeds.

I have a story now to tell,
Unknown before to all—
It's of the treasure, he did leave,
When God, to him did call.

One day my mother gave to me,
A piece of silver small—
It was just a little dime,
But special, as I recall.

On a day, after father had gone,
In a pocket, mother did find,
When going through his clothes,
This lovely little dime.

Never intending with it to part,
With my treasures I stored it—
But in 'depression days,' for a loaf
of bread

I traded it, this precious bit.

Do you think my father was dis-
pleased,
If he knew where his silver
went?

It wasn't just a selfish need,
With four little ones to feed.

God help me guard my heavenly
store,
And keep it near a hand—
That when a needy soul comes
'round,

With fruit I may abound.
By Esther Hall.
